

SignedDistanceFunction< T >

```
graph BT; CylinderSDF[CylinderSDF< T >] --> SignedDistanceFunction[SignedDistanceFunction< T >];
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box labeled 'CylinderSDF< T >'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'SignedDistanceFunction< T >'. This indicates that 'CylinderSDF< T >' inherits from or specializes 'SignedDistanceFunction< T >'.
